# MNM MEAT PAD

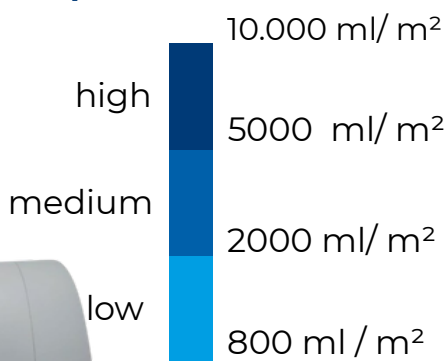

MNM Absorbent Pads are specifically engineered for the packaging, logistics, and retail display processes of red meat and poultry products. Thanks to its advanced absorbent core technology, it rapidly traps excess fluids, preventing the product from sitting in its own juices and inhibiting bacterial growth.

## Why Choose MNM Absorbent Pads?

- Maximum Visual Appeal
- Advanced Absorption Technology
- High-capacity absorbent
- Shelf Life Optimization
- Compliant with food safety standards
- Core made of pure cellulose with super absorbent material (SAP or SAF upon request).

### For low to high absorption requirements

Available in rolls, as and in pre-cut custom sizes.

MEAT PAD Specifications	
Core Composition	Cellulose or Cellulose + Super Absorbent Fibre
Topsheet	Polyethylene Film
Backsheet	Polyethylene Film
Color	
Standard Sizes	80x120 , 80x150, 100x120 , 100x150 120x120, 120x190, 300x400, Production can also be carried out in customized sizes and absorbency levels upon request.
Packagin	Rolls, Single Cut
